### Movie and TV Streaming options to Cut The Cord

## WHAT IS STREAMING?

When you watch a video or movie on your smartphone, Smart TV or computer, the signal is sent over the INTERNET to your home, and then over your wireless network to your smartphone, TV or computer where it is converted to video and audio. This process of delivering media content over the INTERNET is known as streaming. Streaming lets you watch a video or listen to music "on-demand" which means whenever you want without waiting for a show to be broadcast or downloaded. Upload and download speeds work best with streaming services.

#### Roku® streaming device

A Roku streaming device enables you to stream movies, TV shows and much more over your home INTERNET connection to your TV. These movies and TV shows are brought to you by streaming services such as Netflix and YouTube, which can be accessed through the Roku streaming device.

#### Amazon Fire TV Stick

A Roku streaming device enables you to stream movies, TV shows and much more over your home INTERNET connection to your TV. These movies and TV shows are brought to you by streaming services such as Netflix and YouTube, which can be accessed through the Roku streaming device.

#### Apple TV 4K

Apple device lovers will gravitate toward this streaming box, which brings 4K HDR to the long-popular device. You can also easily stream content from iTunes, as well as the typical streaming apps like Netflix, Hulu, and ESPN. The Siri-powered remote makes searching by voice command easy, especially for those who are familiar with the digital personal assistant.

#### Smart TV

An internet connection is primarily used to stream television shows and movies from a variety of apps and services, like Netflix, Hulu, HBO, and YouTube (among others), which are built into the TV. Many smart TVs also have web browsers included.

#### Hulu TV

Watch your favorite live sports, news, entertainment, and more. Plus, get unlimited access to the entire Hulu streaming library. Try one week free. Cancel anytime

#### YouTube TV

YouTube the world's most popular video site now offers TV. Stream with Google Chrome cast or download the app on cellphones, tablets, Roku, Apple TV, Android TV, Xbox One and supported Samsung and LG TVs.

#### Xbox Movies & TV

With Xbox, you'll find the best apps, TV, movies, music, and sports all in one place, so you'll never miss a moment. It's all the entertainment you love. All in one place built into the Xbox console.

#### Sling TV

With Sling TV's streaming service, you get to pick your channel lineup & personalize you TV experience. Sling lets you ditch cable TV and still watch live channels from ESPN, CNN, Disney and more for \$25/mo.
